pope john paul ii was clearly one of the most influential persons of the 20th century he affected the world of politics religion and culture with a rhetorical zeal unmatched by few actors on the international stage from the downfall of communism in eastern europe to his devotion to mary to his championing of social justice and orthodox theology this book examines his several moments of persuasive finesse as well as instances when his message could have been crafted more effectively the essays in this collection examine his persuasive skills from several scholarly points of view the book also offers analyses of media portrayals of this often controversial figure with contributions from some of the world s leading communication scholars clergy and social activists this book is must reading for anyone interested in a deeper understanding of religious communication in general and john paul ii s rhetorical papacy in particular written by catholics protestants mormons agnostics and atheists the chapters approach the pope with varying degrees of admiration but always with intellectual respect

even though they lack the words to describe it most people know that spiritual warfare is real this book pulls back the curtains and gives the reader a front row seat to the most exciting show of our time each chapter pairs riveting personal stories with solid biblical teaching to give the reader practical guidelines for defeating satan and living a victorious christian life perhaps you feel like peter felt when jesus commanded him to leave the safety of his boat and step upon the tempestuous sea because he trusted jesus he obeyed him later jesus told the disciples

that they would do greater things this book will help you find the courage to step out of your comfort zone and walk into the world of power ministry thankfully a series of profound encounters with evil supernaturalism forced me to overcome my internal resistance to spiritual warfare after i learned how to flow with the spirit defeat the enemy and set the captives free my life has never been the same are you ready to join the battle

for a controversial yet refreshing perspective this book you are holding right now is one that will give you a salient insight into the author s discourse with a new subjective viewpoint regarding the anunnaki ancient world their significant deeds and contributions to humanity which syncs very nicely with the modern ancient astronauts hypothesis events that are largely associated with the old testament bible genesis narrative are inextricably linked back to anunnaki as those who from heaven came down to earth were a fifty man crew under command of the anunnaki royal prince enki ea from his home planet nibiru the eponymous god of creation imbued kemetic spiritual science philosophy to the african pharaohs dynasties of egyptians mithrum its speculation and bold assumptions will brighten up your vision as you discover what has long been hidden by the elites who promulgate mendacious truthiness and storytelling as the vicar s of god on earth reading this book gives you this powerful insight from a mind body and spirit perspective you discover a different view of the holy old testament bible genesis narrative and storytelling hakeem invites readers to reexamine the bible myth as a dichotomy between the significant transition into the western new testament christian church religion of western europe and the african egyptian consciousness of spiritual science precepts the kemetic ankh life became the christian cross death each represents important symbolism whereas the former was plagiarized and replaced and incorporated into the roman catholic new testament christian bible religion and canons as the doctrine of theology it s a great story that postulates an assertion that calls one to reexamine the bible book of genesis which the hebrew and greek septuagint bible scribes removed acknowledge to conceal gods anunnaki identity of the gods the truth about the elite royals pantheon of alien gods as anunnaki anu enlil and enki as those who from the heavens came down the ancient account pertaining to the sumerian bible genesis is the original codex of historical manuscript religious described rituals and rites which was the hidden books of sacred knowledge and wisdom taught in the halls of the mystery schools by the ancient egyptian priesthood this book imparts his speculative unvarnished anecdotal details about genesis from

a different perspective the biblical history of genesis as it should be taught not like the christian catholic protestant and baptist religions teach the gospels of the christian savior of the crucified jesus christ as the human savior or of the crucified jesus christ of heaven not like the christian catholic protestant and baptist religions of blind faith but in its purest form of theology that is primarily the gospels of death salvation and the resurrection after the end of jesus christ s crucifixion by the roman albeit speculative its conjecture dovetails nicely with attributions described in the old testament bible god corresponds precisely to enki ea deeds this book is complete speculation with emphasis on the bible book of genesis hakeem boldly conflated the creator of the homo sapien sapiens with enki who was a brilliant scientist and chief medical doctor which means that he was exceptionally qualified to genetically fuse his biological dna chromosome code by genetic manipulation of an african female mitochondrial dna as described in the old testament genesis narrative tale which raises curious questions as to why the book of genesis accounts can be examined with great skepticism and a misdirection play because much of the factual information about the genesis of history was either burned by invading armed forces omitted the rulers suppressed by the church or destroyed in order to control the narrative of historical evidence he pointed to enki s process concerning an african female s mitochondrial dna biological chromosome genetic codes manipulated and used to fashion adam men as his hebrew ancestral royal bloodline it s a fictionalized story written to make people think about this with intellectual intuition logic and reason
